

# American Youth Soccer Organization

March 20, 2020

As Tustin AYSO continues to monitor the rapidly evolving situation around the coronavirus (COVID-19), our first thought is for the safety and well-being of all our players, their families and all of the many volunteers in our Region. In these unprecedented times, it is important that we come together to support all those impacted.

At this time, under the direction of the AYSO National Office, all Tustin AYSO Programs have been suspended, including practices, games and meetings, until April 13, 2020. Again, on or before this date Tustin AYSO will determine if we will continue our Spring Program.

The AYSO National Office continues to evaluate information as it becomes available from national and local Public Health offices and will make a determination/recommendation on reengagement per that information. Tustin AYSO understands that this has created anxiety in our community, but please know that the health and well-being of our entire Tustin AYSO Family is my top priority.

Tustin AYSO continues to recommend that everyone follow the CDC guidelines, which can be found here: <https://www.aysovolunteers.org/coronavirus-update-and-prevention-tips/>.

To all our Players, Volunteers, Coaches, Referees, and Families, thank you for your understanding and we hope you stay safe and well.

Thank you,

George Annen  
Regional Commissioner  
AYSO Region 96 – Tustin
